

Link Title Maker — Terms of Use & Privacy

Version: v3.5.2 — 2025-10-09

Owner: Mariusz Włodarczyk — HIVEEVE Project

1) What this app does

Link Title Maker transforms a web address (URL) into a clean, clickable word or emoji. You can copy the result as HTML (for email/word processors) or Markdown (for docs, wikis, dev tools). The app runs entirely in your browser. There is no login, no server backend, and no user account system.

2) Acceptable use

- You may use the app for personal or internal business purposes.
- You must not use it to generate deceptive links that misrepresent destinations.
- You are responsible for verifying that links you paste are safe and appropriate for your recipients.

3) Clipboard behavior

When you click a “Copy” button, the app attempts to write either **HTML** (for email/docs) and/or **plain text** (fallback) to your clipboard. Some applications—especially instant messengers like **WhatsApp**—ignore custom HTML and will **not render a custom linked word/emoji**. This is a **platform limitation**, not an app error.

4) Data & privacy

- **No tracking, no analytics, no cookies.**
- The app stores **only one preference** in your browser **localStorage**: the interface language key `ltm_lang`. This never leaves your device.
- Pasted URLs and text never leave your browser (no network calls).

5) Third-party links

The footer includes optional support links (**PayPal** and **Buy Me a Coffee**). If you choose to open them, you will be subject to those providers’ terms and privacy policies.

6) Intellectual property

- Copyright © 2025 Mariusz Włodarczyk — HIVEEVE Project. All rights reserved.
- Use via the official website only. **No copying, redistribution, or rehosting** without written permission. **Commercial use** requires a separate license.
- “HIVEEVE Project” is a project name; **no trademark license** is granted.

7) Warranty & liability

The app is provided **“as is”** without warranties of any kind. You assume all risk for how you use generated links. To the maximum extent permitted by law, the owner is not liable for any indirect, incidental, special, or consequential damages.

8) Changes

These terms may be updated from time to time. Material changes will bump the version number at the top of this document.
